SUMMARY

Full-Stack Developer skilled at building scalable, performant, and engaging web applications using Next.js, React.js, and the MERN stack. Experienced in designing animated, visually rich user interfaces, integrating headless CMS, and optimizing for SEO. Proven ability to collaborate across teams, rapidly deliver features, and contribute to robust codebases in Agile environments.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, Typescript, HTML5, CSS3, Tailwind CSS, GSAP

Backend: Node.js, Express.js, Strapi, REST APIs

Databases: MongoDB, SQL, PostgreSQL

Cloud / DevOps: AWS, Vercel, Git, GitHub

Tools: Figma, Agile methodologies, AI

EXPERIENCE

Lucien Solutions

Jan 2024 – Present

Associate Software Engineer

Mumbai, India

- Engineered high-performance full-stack applications using Next.js and MERN stack (MongoDB, Express, React, Node)
- Developed and deployed company website with Strapi CMS, enabling seamless content updates by non-technical teams
- Optimized site performance and SEO, resulting in measurable improvement in user engagement
- Collaborated with cross-functional teams for feature planning, sprint delivery, and quality assurance

Wrexia Technologies

Aug 2022 – Feb 2023

Full-Stack Developer Intern

Remote

- Built responsive web applications from Figma designs to client specifications using Next.js and React.js
- Integrated AWS Cognito for authentication, streamlined deployment to cloud platforms
- Mentored in cloud deployment, DevOps practices, and scalable architecture by senior engineers

PROJECTS

LinkedFolio | Next.js, Mistral AI, OpenRouter AI, Node.js, Vercel

2025

- Built an automated tool to transform LinkedIn profiles into professional portfolio websites in one click.
- Architected with Next.js and Node.js for robust, scalable web performance.
- Integrated Mistral AI and OpenRouter AI APIs to power advanced data parsing, content formatting, and intelligent section generation based on imported LinkedIn data.
- Implemented dynamic SEO features, theme customization, and instant deployment to Vercel for a seamless, code-free user experience.
- Streamlined portfolio creation for job seekers and professionals, enabling rapid online presence enhancement from existing LinkedIn profiles.

CET Exam Score Calculator | Next.js, JavaScript, Shadcn, Tailwind CSS, Neon DB, Vercel

2025

- Developed a web-based tool to automate CET exam score calculations by parsing official objection response .htm files.
- Built robust parsing logic with JavaScript and DOM manipulation to extract and process examination data, calculating total, correct, incorrect, and unattempted answers for students.
- Designed a clean, responsive interface using Shadcn and Tailwind CSS to maximize user accessibility across desktop and mobile platforms.
- Implemented secure file handling, dashboard summaries, and advanced features such as leaderboard and individual performance stats.
- Leveraged Next.js API routes for backend functionality and Neon DB for persistent storage; deployed seamlessly to Vercel.
- Gained experience handling browser-based file uploads, parsing structured HTML data, and designing detailed guides for improved user workflow.
